April 29-30, 2009

U.S. Department of Energy
Energy Efficiency and Renewable Energy
Bringing you a prosperous future where energy is clean,
abundant, reliable, and affordable.

Overview

Make your company more profitable by getting smarter about compressed air. Through a series of workshops, the Compressed Air Challenge® helps you evaluate your own systems and apply proven techniques. Workshop participants will be able to achieve higher productivity, reduced downtime, greater energy savings, increased product quality, and greater efficiency. Please join us for our upcoming Advanced Management of Compressed Air Systems Workshop.

Instructors

Mr. Frank Moskowitz has over 30 years experience in plan engineering. He has a bachelors degree in mechanical engineering and education, including the refrigeration, electrical, plumbing trades. For the past 17 years, Frank has been an associate of Draw Professional Services primarily in the auditing, consulting, training and system design fields. His specialty consists of Compressed Air Systems (oil flooded and oil free), Vacuum Systems, Contaminate Removal, System Design, and Energy Management. Frank is a Compressed Air Challenge instructor for both fundamentals and advanced trainings and an AIRMaster+ instructor. He has published articles in Plant Services Magazine, MRO Today, and Energy Matters Magazine.

Tom Taranto is Manager of Compressed Air System Solutions for ConservAIR® Technologies headquartered in Kenosha WI. He has over 30 years of experience in design and application of fluid power systems, both pneumatic and hydraulic. Tom has extensive experience in compressed air system design and application of many types of compressors and air system components. Compressed air system design for a wide range of industries underscored the need for improved methods of air system evaluation. Tom is a compressed air challenge instructor for both fundamentals and advanced level of training and an AIRMaster+ instructor.

Optimize your compressed air systems
and reduce energy costs...

Agenda

Day 1:
Viewing the System from the Demand Side

8:00 Continental Breakfast

8:30 - 12:30 Morning Session

- Introduction
- Taking Measurements
- What is Happening Here?
- Developing a Systems Profile
- What is Happening Here? (Part 2)

Lunch (provided)

1:30 - 4:30 Afternoon Session

- Air Quality Requirements
- High Pressure Applications
- High Volume, Intermittent Applications
- Taking Stock of What You Have
- Compressed Air System Maintenance

Day 2:
Viewing the System from the Supply Side

Continental Breakfast

8:00 - 12:00 Morning Session

- Introduction
- Understanding Controls
- Aligning with Demand

Lunch (provided)

1:00 - 4:00 Afternoon Session

- Heat Recovery
- Putting It All Together
- Selling the Project to Management

Summary and Evaluation

Accommodations

Hyatt Summerfield Suites Denver Tech Center
9280 E. Costilla Avenue
Englewood, Colorado 80112, USA
